OFFERING #3-C

MATURE PLANTS

These plants were selected for sale while in flower. The prices were established on the basis of the quality of the flower and the size of the plant. Many of the plants have been repotted since they were selected, and are established in new osmundine.

They are all fine, healthy, well established plants that will produce good cut flowers. The description of the bloom is accurate since it was written as the plant was in flower.

*The plants that are priced at so much less a certain amount, such as \$50.00 - \$42.50, are plants that have bloomed a slightly deformed flower at one time but good at others. The higher price is our estimate of the value if this had not happened.

Since we have only one plant of each variety, please indicate a second and third choice when ordering. No substitutions will be made unless authorized by you, although we would appreciate your granting us this privilege. We have many more plants that are not on this particular offering, and we will make the substitutions as nearly alike the plant you select as possible.

Prices are F.O.B. Chattanooga. Plants to U.S.A. and Canada will be shipped in clay pots by railway Express unless otherwise directed. Plants for foreign shipment will be sent out of pots by Air Express.

A NUMBER AND BENCH NUMBER	BLOOM DESCRIPTION, PLANT AND POT SIZE	PRICE
